Grab Barge

This 70ft powered self loading / self discharging crane boat is fitted with a Fassi F40 hiab with a reach of 6.3 m. It has hydraulic stabiliser legs and two removable water tight skips for containing dredgings or concrete. This one vessel can do the job of a dredger, pusher tug and hopper, being able to load itself, remove or deliver materials to site and then discharge itself. Due to its large carrying capacity it is ideally suited to carry out spot dredging, delivering materials to sites with poor access and piling. The hiab can be fitted with a range of attachments from Hook, Clamshell bucket, piling hammer and post hole borer.

- ✓ LENGTH 70FT
- ✓ BEAM 6FT 10
- ✓ HOLD LENGTH 50FT
- ✓ DRAFT 30" EMPTY
- ✓ CARRYING CAPACITY 20 TONNE
- ✓ MOBILISATION - VIA CRANE AND LORRY
