40ft Crane Boat

New 40ft crane boat launched by The Rothen Group is able to be moved by hiab lorry to keep mobilisation costs down.

The new crane boat is self-propelled, highly manoeuvrable, and has a front mounted Atlas crane complete with seat mounted controls for optimum visibility and usability. Twin stabiliser legs keep the boat stable whilst working.

This boat can be coupled with one of The Rothen Group's 30ft materials hoppers for extra carrying capacity, whilst still being able to fit through a lock as one unit. The vessel also has two tool storage areas.

The crane can be fitted with a range of attachments from clamshell, piling hammers and post drivers.

- ✓ LENGTH – 40FT
- ✓ WEIGHT – 8 TONNE
- ✓ WIDTH – 6'10"
- ✓ DRAFT – 550 MM
